

PROJECT: Berkshire High School  
LOCATION: Burton, OH  
PROJECT TYPE: School  
EOR: Seidler Engineering Inc  
GC: Icon Construction Solutions LLC

“By using Qnect we were able to reduce the project schedule, materials used, and overall cost of the project. Even for a project like this, schedule savings and ease of erection are so important. Qnect’s ability to measure these savings and provide detailed information all the way down to how much carbon was saved is really impressive.”

– James Ross, Creek Steel Detailing LLC

## Projected Savings

Total Tonnage	712 tons
Person-weeks saved	6
Savings from exact steel lengths	\$42,720
33% of bolts saved	\$106,800
Reduction in change orders	\$138,840
Carbon emission reduction	87,661 kg of Co2 reduction
Total Savings	\$288,360
