

An aerial photograph of Boston, Massachusetts, showing the city skyline and the Fenway Center building. The Fenway Center is a modern, multi-story building with a curved facade and glass windows, located in the Fenway neighborhood. The image shows the city's dense urban environment, including the Fenway Park stadium and surrounding residential and commercial buildings. The Fenway Center is the central focus of the image, with its distinctive curved design and glass facade. The background shows the city extending to the water, with the harbor and surrounding areas visible. The sky is clear and blue, suggesting a bright day. The overall scene is a high-angle, wide shot of the city, providing a comprehensive view of the Fenway Center's location and the surrounding urban landscape.

# Qnect

PROJECT: Fenway Center  
LOCATION: Boston, MA  
PROJECT TYPE: Office/retail  
EOR: LeMessurier Consultants, Inc.  
GC: John Moriarty & Associates /JF White Contracting Co.

“Qnect’s software lets us quickly cycle through numerous connection options to increase efficiency and mitigate risk.”

– Craig Blanchet, Vice President, LeMessurier

## Projected Savings

Person-weeks saved	89
Savings from exact steel lengths	\$7.1 million
# of bolts saved	146,000
Reduction in change orders	\$2,383,875
Erection picks reduced	9%
<b>Total Savings</b>	<b>\$14,485,949</b>

LeMessurier Consultants Inc. is a forward-thinking EOR in Boston. They knew that when it came to the steel structure of Fenway Center no better solution existed for the connection engineering and steel workflow than Qnect's award winning Integrated Steel Delivery technology (Qnect ISD). The total savings proved their decision was the right one.

"With a landmark project like Fenway Center, expectations are high," says LeMessurier Vice President Craig Blanchet, "we needed to combine engineering talent with proven tools that would help us meet the demands of the project. Qnect provides a necessary solution that creates value at every turn."
